Anaheim Items.

[From the Gazette.]

Preparations for the calico ball are being made, and we can safely assert that it will be the affair of the season.

The wool clip from the San Joaquin Rancho this year will be about 450 bales.

Messrs. Halberstadt & Co. made a large sale of lumber to the Cerritos ranch yesterday.

On Mr. Pierce's farm, North of Anaheim, may be seen one of the finest wheat crops ever raised in this valley.

It is a pity that the finest clip of wool ever sent from this valley should bring the lowest price ever known, but the sheep owners find, to their sorrow that such is the state of the market.

There will, we learn, be a pic-nic given by the Grangers on the first of May. In the evening there will be a dance at Enterprise Hall.

As will be seen in the proceedings, published to-day, of the Board of Supervisors, Thomas Shelley has received the appointment of road overseer for Anaheim district.

Santa Monica Items.

[From the Outlook of the 5th.]

What was an open space around the Outlook office, five months ago, is now occupied by over twenty substantial houses.

The oldest inhabitant has never seen more luxuriant grasses than those which now carpet the hills and plains around Santa Monica.

So far the Santa Monica Land Company have sold about 1,000 town lots, and over 30 five-acre "Villa Farm" tracts of land,

The weather at present is most delightful—neither hot or cold. The mercury during the past week has ranged from 50 to 73 degrees.

Business on the railroad from Santa Monica to Los Angeles has gradually increased ever since the first train passed over the track.

Within the past few months, two churches—Methodist and Presbyterian—have been built in Santa Monica. Two others—Episcopal and Catholic—are talked of.

No locality is more healthy than Santa Monica. There have been but five deaths since the town was established. Two lost their lives by accident, one came here an invalid, and the other two were twin children, who died a few hours after birth.

We are creditably informed that all the ships of the new line, belonging to the "Panama Transit Company," will touch regularly at Santa Monica, both ways. Two ships are now on their way around Cape Horn, for the line between San Francisco and Panama.

Santa Monica, unlike most small towns, has for the past six months enjoyed metropolitan advantages, as regards its mail facilities. The railroad Company have been especially accommodating in securing to our citizens the benefits of a daily mail.

A census taken the other day in Santa Monica shows that there are between 800 and 900 inhabitants. There are 116 school children between the ages of five and eighteen. The Chinese number 16—fourteen men and two women; gentlemen of color, three.

Messrs. O. H. Lee, S. Sturges, B. Sturges and T. D. Sturges, capitalists, largely interested in Chicago elevators spent several days here last week. These gentlemen, after a general inspection of the locality, pronounced Santa Monica far ahead of any of the Atlantic Summer resorts, insofar as natural advantages are concerned.

Samuel C. Hough, of this place, received a letter yesterday from W. W. Walby, ex-Mayor, and a leading banker of Adrian, Michigan, who is now in Jacksonville, Florida. After comparing notes upon that popular resort and Southern California, Mr. W. decides in favor of the latter, and writes that he will start for this section in a short time, with the intention of purchasing property and locating permanently.

The facilities for supplying Santa Monica with water will be very complete when finished. Two large reservoirs holding at least one million gallons of water and supplied by excellent springs, have been constructed. A large main pipe already conveys the water into town, and a branch pipe has been laid through the length of one street. The pipes have been ordered, and as soon as they arrive, water will be conducted upon the premises of all who wish it. There are also a number of wells, which furnish a large supply of water.

Human Nater.

There is no better place than the postoffice to study human nature in all its phases. There is the individual who gets a letter about once in six months, but who always struggles to be first at the window, and who regards his solitary letter as a natural curiosity, turning it over and over viewing it from an up hill and down hill standpoint, as if astonished that he should get one at all; the man from the country who enquires for all the folks at his place; the spruce clerk who gets a dozen letters for his employer, and looks as wise as if they were all intended for himself; the indignant specimen who wonders why the expected letter hasn't come, and who holds an earnest colloquy with the clerk as to the probable cause of its detention; the bashful young man, with faint traces of down on his chin, who expects a letter from his sweetheart, and who retires in confusion; the big man who treads on his neighbor's corns; the seedy customer who gets a bill for washing, and tries to make one think it's a draft; and the booby who waits on the sidewalk to see who goes in and who comes out, are the persons we see daily at the postoffice. Reader, if you will watch the postoffice any day about mail time, you will see the individuals thus briefly described. The clerks think highly of the young man from the country who inquires for the whole neighborhood, and only second to him is the indignant individual who fails to get the letter that "he knows was mailed, day before yesterday." These gentlemen are very popular, very.—*Exchange.*

SATURDAY,.....APRIL 8, 1876.

NEWS OF THE MORNING.

An unknown woman was found in the woods last Tuesday, near the Upper Sacramento Ferry, about 30 miles north of Shasta, and was brought to town last night and delivered to the Sheriff. There were no letters or anything in her carpet sack to indicate who she was or where she was going. She is seemingly very quiet and willing to go to any place or do anything when asked, except eat and drink, which she has not done for four days. She refuses to give any name except Jennie, and also refuses to give the name of any of her friends or relations. Her only wish seems to be to die. She came to Redding on last Saturday's train from below, left on the Yreka stage Sunday, and got off at the Upper Sacramento Ferry. She is now in the hospital.

R H Smith editor of the American Watertown, New York, was fined $75 yesterday for contempt of court, he having written and caused to be published an editorial calculated to injure the dignity and efficiency of Judge Boughton. Smith refused to pay and is in jail.

A Prescott despatch says that P B Hawkins who started from Ventura county, California with a band of 2400 sheep. has arrived with only half that number, the remainder having died of want of food along the route. A son of Mr, Hawkins, 15 years old, was killed by the running away of his horse a few days after his arrival in Arizona.

The town of Plano, Texas, is very much excited over a horrible sensation which occured there yesterday. Mary Robinson, a young girl belonging to one of the first families in that section, gave birth to an illegitimate child after which she cut its throat with a dull pair of scissors and threw the body into an adjoining back yard. The girl is now at the point of death, and positively denies the crime.

A train arrived yesterday at Kansas City, from Hanover, 124 miles West of the St. Joe and Denver city railroad. This is the first train since the storm of March 29th. It is reported that trains will be able to pass over the entire road to-day.

By the death of Julia Rosa Newberry of Chicago, at Rome last Tuesday, between two and three millions of dollars were bequeath by her to revert to the city of Chicago for establishment of a free library. The estate is valued at $5,000,000.

The Scramble for Office.

Every four years there is a scramble for office. There are sixty thousand offices in the gift of the President and members of Congress. To the victors belong the spoils, and these offices are all handed over to the friends of the party in power, irrespective of qualification or fitness for the position. So long as offices of this kind are prizes to be scrambled for, it is vain to expect purification in public life. While it lasts all hope of a genuine reform is a delusion. Take away these appointments from the President and members of Congress, or take from them the power to make changes during good behavior and the evil is at once cured.

Poor Lo!

The Indian Bureau is perhaps the most perplexing question before Congress and the most difficult for the people to understand. How it is that Belknap, the Secretary of War disgraced himself and the nation in connection with this question, since which time great efforts have been made in Congress to turn that whole department over to the War Department. The people are puzzled to know how the Secretary of War was so terribly muddled up with the Indian Department while he had no control over it. One word will explain it. The frontier trading posts were under the protection of the army, but permitted to trade with the Indians. These post traders obtained their position from the War Department, because the War Department was in some measure responsible for their conduct. Then the question is asked, "Of what use is the Indian Bureau?" Well, to answer in a few words, It is expected to negotiate treaties and preach righteousness to the Indians; civilize them and make good law-abiding citizens out of them—in which work they have signally failed. The Indians were under control of the War Department until the Republicans got control of the Government, when the great desire to find soft places for army pets induced them to create this Indian Bureau, by which they increased the number of offices in the gift of the President several thousands, and the expense of the Government several millions.

Mr. Gerkhardt has torn down the old German School house on Main street near Third and will soon commence the erection of a fine hotel.

Connecticut Election.

The Democratic triumph in Connecticut is what was expected by the party. The decreased majority was very trifling, and can be accounted for on local issues. Some have attributed it to the great storm which prevailed throughout the State on the day of election. This is nonsense. If the bad weather kept the voters from the polls, there were doubtless as many of one party as the other who refused to venture out. But many local issues were brought into the canvass, which always influence the general result of an election. The shrewdness of the Republican party in getting up and preparing for these local issues is proverbial, and they always get the better of the Democrats in such games. None but a national election ever shows the true strength of the two parties. That Connecticut is and will continue to be Democratic by a large majority we have no doubt. And the Republican victory in the State election of New Hampshire is no indication that she will be Republican in the Presidential canvass. These State elections are a kind of training field for the final contest, and in these trainings heavy weights are often carried by one party or the other, which is always disastrous. Both parties will be cursed for years to come with the dead weight of old political hacks; but in this the Democrats will have decidedly the advantage as they neither have so many of this class as the Republicans nor have they been so recreant to the public trust.

The Chinese.

There is a general misunderstanding in regard to the anti-Chinese movement in California. It is generally believed that the object is to send all of the Chinamen out of the country, and prohibit the importation of others. The prohibition of the importation of Chinese to this country is the only object in this movement, and this should be distinctly understood by all the people. Anything farther than this can result in nothing but mischief—nothing more than this can be accomplished without a violation of the treaty with China, and the good faith of our country. If we can prevent the further emigration of that people, we can endure the presence of those we have now with us, as they will rapidly decrease. The fact is we are of the opinion that it would be a calamity, to have them all shipped away at once. In the absence of other labor they have become to be a necessity with us. True if they had never come here, we should have had other and a more desirable class of laborers, but their presence has kept others away, and we would prefer to keep a few of them until we have an influx of other laborers, those that we have here will pass away quite soon enough for our convenience. We have no sympathy with that class of politicians who talk about driving out the Chinese from this country. This is not the way to treat so serious a subject. The Chinese came here under sacred treaty obligations, and it is a violation of plighted faith to treat them in this summary manner. We profess to be a refined and civilized people, and governed by a high sense of honor. Possessing these noble characteristics we can never descend to the inhuman treatment of an inferior race, notwithstanding their presence may be a source of great annoyance to us. We presume there is but one feeling among our people in regard to the Chinamen. Nobody wants any more of them. But as to the best mode to get clear of those we have there is a great difference of opinion. We say let it be done in a peacible, quiet and legal way.

Immense Crops.

It is now beyond a doubt that crops of all kinds will be the largest ever known in Southern California. The grain crops will all be harvested and disposed of in the usual way. What is not required for home consumption will be shipped to the mines in the back country, or to San Francisco and sold. To supply the large immigration pouring into the county we will need more for home consumption than ever before. But the tremendous fruit crop, what is to be done with that? Now is the time for farmers to prepare to take care of and put it in a merchantable condition to supply the markets in other countries. To do this they must can it, or dry it. Canning fruit is a very tedious and expensive business, and to make a success of it a large capital must be invested. It is impossible for one man, or one family to do it with sufficient economy to make money out of it. Drying in the old-fashioned way is a slow and tedious business, and though it is better to save fruit in this way than to throw it away there is very little to be made at it. Drying or curing fruit and vegetables by machines must take the place of all other modes of saving these crops, and putting them in the best possible shape for the market. There are so many reasons why this must be done that we will only undertake to name a few of them—First it is the cheapest way that fruit and vegetables can be saved—Second Where it is cured in this way it is forever secure from all insects. Third—It never decays, nor does age depreciate it. Fourth—It never loses its aroma, and is as good and fresh when put into water a few minutes before cooking it as when it came out of the field or orchard. Fifth—It can be pressed into a smaller compass for shipping than when cured in any other way. Sixth—The demand for it in the armies and navies of the world is so great that it brings nearly double what it would if cured in any other way. Seventh—All vegetables and fruits can be saved in this way at any season of the year, so that nothing ever need be lost or thrown away on the farm. We say now is the time for the farmers to begin to make arrangements to save the enormous crop now growing. If all the fruit growers and farmers in the county will save all they raise this year, we have never seen money so plenty as it will be here next Fall. The fruit crop will bring double the money to the county that our wool crop will bring. Let companies be formed in each town and neighborhood in the county, and go into this work in earnest. Those who are living out to themselves should now procure a family fruit dryer and be ready to save their crops.

The Jewish Holidays.

The Jewish Passover commences on April 9th and will continue for eight days. This is a solemn season among Israelites and a Jew of any pretensions to piety observes it most sacredly. In the twelfth chapter of Exodus the historian, after describing the divine fiat of destruction to Egypt's first born says; "and the blood shall be to you for a token upon the houses where ye are, and when I see the blood I will pass over you, and the plague shall not be upon you to destroy you, when I smite the land of Egypt. And this day shall be unto you for a memorial; and you shall keep it a feast to the Lord throughout your generations; ye shall keep it a feast by an ordinance forever." This is the simple history of the origin of the passover, which has been observed by the Jews for thousands of years, wherever scattered throughout the earth, whether in prosperity or adversity. We have been furnished the following account of the mode of making the unleavened bread:

A half sack of flour, weighing forty-nine pounds is emptied into a zinc trough and nothing more than eight quarts of water is added. The dough is then worked until a proper consistency is acquired, when it is taken from the trough and transferred to a semicircular platform upon which it is kneaded for a short time, after this it is run through the kneading machine and then transferred to a large rolling apparatus, where the dough is pressed into the required thickness, and marked in a similar manner to that in which common crackers are perforated, and cut into cakes about eight inches square. The cakes are then transferred into a large oven, where they are soon baked after which they are taken out and packed, ready for shipment to various parts of the country. The cakes that may be a little burned while baking. or broken after being taken from the oven, are run through a small hand mill and ground into a kind of meal, which may be used during the holidays in making pastry. The use of no bread but that we have described is permitted during the interveing days between the 9th and the 16th of April.

MAMMOTH SHOWS.

Montgomery Queen's New Circus and New Menagerie.

[From the San Francisco Call, March 26th.]

Montgomery Queen seems to know exactly the wants of the people who patronize amusements on the Pacific coast. Last year the grand concentration of talent which comprised his elegant establishment seemed to us as it Queen had exhausted the equestrian world, and that no possible improvement could be made; but the indefatigable and never-tiring manager has succeeded in collecting together new attractions and features that were never offered our public before. Mr. Queen has procured a new and magnificent outfit for his caravan, and his daily free street displays cannot fail of convincing the most dubious doubter that Queen has by odds the most extravagantly gotten up establishment, not only in America, but that ever rolled upon wheels. Besides the new lofty band chariot, Mr. Queen will introduce some new features in his processions, known as tableau cars. One of these represents "Queen's Dream of our Hundredth Anniversary." The car is emblematic of our country and the birth of freedom; in the centre and upon a lofty platform stands the Goddess of Liberty, with a living loose Senegal leopard crouching at her feet, surrounded by full life-sized figures in gold of Justice and Columbia. The others consist of moving tableaux. Prof. Pierce's group of performing royal Bengal tigers comprise a living picture witnessed only once in a lifetime. Zinzebar and five other man-eating hyenas form another striking illustration of man's power over the brutes of creation. Madame Pauline, the only female subduer of lions on the Western Continent, gives a public exhibition of her reckless disregard of the great monarch of the jungles. The long line of new animal dens elaborately painted in light green and gold, with centre pieces of over fifty magnificently executed Scriptural paintings representing some of the grandest and most sublime passages in the Bible. Many new animals have been added. The Arenic or Moral Circus department is complete and unexceptionable. Signor Quaglient, the Italian bareback one and four-horse rider; Abelardo Lowanda, the wild rider of Brazil; young Sebastian, the four-pony rider, and Miss Mollie Brown, the greatest female rider the world has ever produced, stand prominent among the celebrities of Mr. Queen's equestrian organization. The Mathews family, the great Kennebels, Levantine, Austin, and Mme. d'Atalie, the beautiful French female Samson, who carries an immense brass cannon on her shoulders, and from which is fired a centennial salute in the arena, furnish the best evidence that Queen intends outdoing all previous efforts in the direction of amusing the public with new and the very best sensational performances. Mr. Queen has acquired a fine reputation in California for giving more than he promises to the people for their money, and his shows are regarded by the people of the Pacific coast as one of the necessaries. The big street demonstration on Monday, April 3d, will show what nerve, brains, capital and honorable dealing can accomplish.

The colt stolen from Judge Mallard has been recovered in Ventura county.

The Chief of Police yesterday received notice that some enterprising individual was endeavoring to collect taxes without authority. It appears that he obtained some letter heads from the Tax Collector's office and made out a bill of taxes to Wm. Bell, and left it at his house. He was acquainted with the proper mode of collection, however, and communicated with the police. The Tax Collector does not send bills around.

Accident at Tehachape.

TEHACHAPE, April 7th—A serious accident occurred at the Tunnel at 15 minutes of three this afternoon. A man named Mike M Laughlin, an old employee of the C. P. R. R. and S. His sister who resides in San Francisco has been telegraphed for.

Conkling's Chances.

NEW YORK, April 7th.—The *Herald* editorially discussed the presidential question at great length this forenoon, on the basis of the President's acknowledged preference, according to the *Herald's* Washington special, in favor of Conkling as Republican candidate, who is exceptionally strong with New York Republicans, but has not the slightest chance of taking the State away from the Democrats. It would be an act of political suicide for the Republican party to nominate any candidate who has no reasonable prospect of carrying this State. The influence of President Grant is worth at least 200 delegates in favor of the candidate he supports. He controls all, or most of the Southern delegates through the confidence reposed in him by the negroes, and virtually backed by New York and Pennsylvania. The *Herald* thinks Conkling will go to Cincinnati with 118 delegates from New York and Pennsylvania, and about 275 from the Southern States. With this formidable display on the first ballot the chances are greatly in favor of Conkling's success.

River Clear of Ice.

LACROSSE, Wis., April 7th.—The ice in the Mississippi river moved out yesterday afternoon. The river is now clear in front of the city. Transfer steamers commence running to-morrow. Ice still hangs about the city and is gorged in at the island below the city and at Coon's slough the ice is very soft. Navigation South from here will probably be clear Saturday. The water is five feet five inches above the low water mark of 1875.

A Card to the Public.

THESE Medicines, which are becoming so popular in the Southern portion of this State, are simply beating down all prejudice and opposition as regards their efficacy here, as they have been doing in San Francisco and other places. By their virtues, their irrefragible influences, surely and speedily effected, the most incredulous are at once shorn of their doubts. Those who have dreaded and suffered with those excruciating dises,

Rheumatism & Liver Complaint,

May hail with joy the advent in their midst of these wonderful medicines, which the Doctor has labored for years to perfect, as a specific for the above diseases.

You that are suffering at once cast aside your prejudice, derived, and justly, from repeated failures. We ask that your hopes may revive, at least sufficiently to give this medicine one fair trial. We feel bound to do our duty, and in justice to Dr. Clark and the suffering thousands who may read this card, we, the undersigned residents of this county and vicinity, MOST FORTUNATELY speak from experience, and we assert most emphatically the efficacy of the above medicines is irrefutable. Our friends, and even strangers, may ponder over these remarks, but if the candid truth from our lips robs them of their incredulity sufficiently to place themselves, with kindling hope, under the treatment of Dr. Clark, with his celebrated Family Medicines, we well know that some good will acrrue from our efforts, and most heartily say

God Speed the Right.

Delightful! Though Mr. La Ransleur has closed his select dancing classes for the present season, and has taken the management of a special class of popular amusements to be given at the Washington Garden and at Santa Monica during the coming season, he has now consented, after an urgent request from many of our leading citizens, to give instructions to a class of young folks every Saturday afternoon at the spacious hall at the Washington Garden, located in the midst of an orange grove, and surrounded by beautiful graveled walks, water courses, fountains, pagodas, flowers, and the song of wild birds.

☞ We are requested to state that applications for membership to this class may be made through the postoffice or at the office of Mr. La Ransleur, in the hall at the Washington Garden.

What is the value of a life? Gold cannot measure it. Yet when menaced by a violent cough or cold, or any disease leading to consumption, a single dollar invested in HALE'S HONEY OF HOREHOUND AND TAR will unquestionably preserve it.

The crowning glory of a man is a good hat. It is the distinctive mark of a gentleman. No matter if his clothes are threadbare, if he has a stylish hat; people don't look at anything else; in fact, it not only covers his head but the defects of all sorts which would become visible were his hat not perfect. Desmond has the most stylish and perfect articles at his store on Main street, in Temple Block, that can be made.

A Few Extracts from Letters.

Extracts from letters lately received from Stockton; the originals may be seen on application to the undersigned.

"I bought and paid $600 for a Hunter mare, broke and drove her—within four months—to wagon on a half mile track in 2:10. Is now in foal by Hamiltonian. I am offered $500 for the colt at weaning. The Hunter stock has proved the best stock we have had here, as it took only four months to make them trot in three minutes, and if they had a good *dam* could not be beat."

"I bought a bay Hunter mare from Cutler Salmon, Esq., five years old, broke and drove her, within four months from purchase, a quarter in 37½ seconds, and sold her like a fool foor $800. She was the best piece of horse flesh I ever saw for her age—very pretty, gentle as a lamb, but of high metal. *Hit* her and she would *come* every time, and never broke. No other person pulled a line over her while I owned her."

"*Solid Silver*, owned by Thomas George, is a small horse, out of a scrub mare; has trotted in the twenties, and has a public record of 2:40¼ at last fair time, and badly handled at that."

"There's a team owned in Oakland, sorrels, 15¾ hands, perfect beauties, can trot in 3:00 and pace in 2:30, were raised here by Mr. Morse, been handled only one season."

"Judge Brown has a mare six years old by the old horse. She was sold at auction for $300. She is a natural trotter—it is useless to offer $500 for her now."

From the above this public may form a correct idea of what may be expected from the in roduction of this stock into Los Angeles county.

Temple was called to the stand and testified until the hour of adjournment. About half past three o'clock the testimouy reached a point where it was necessary to introduce the books of the bank and the Court then adjourned. The case will be recalled at 10 A. M. to-day, when Mr. Temple will resume his testimony.

Ledyard's Attorney yesterday filed an affidavit on a motion to dismiss the defendant from arrest on criminal process, for the reason that the affidavit on which the order of arrest was issued was not sufficient in law, by reason of irregularity in the proceedings in said suit, which would not legally justify an arrest, and also because the arrest was contrary to law in other particulars. Judge Sepulveda appointed at least two days before the 10th day of April, current, to show cause why the motion should not be granted.

A Chinaman of singular character went to Marshal Carrillo yesterday and threw himself upon the officer's protection. The man, who called himself Yek Ta, said that he had been converted to Christianity and had been baptised. This set all of his fellow Celestials at enmity with him, and they threatened to take his life. He seemed very miserable and dejected. One of the most singular things about him was that he spoke only Spanish, not knowing a word of English. Those who conversed with him said that he spoke Spanish quite fluently. He said that he formerly worked in Anaheim and Chino, that he had been very illy treated and wished he were dead. The man's appearance showed him to be a farm hand or grader, and he carried with him, strung on a pole, all of his earthly goods. He was given a place by the fire in the Council Chamber for a while, but how he was ultimately disposed of we did not learn.

REASONS WHY

— THE —

REMINGTON FAMILY SEWING

MACHINES

Are Superior to All Others.

FIRST—THEIR SIMPLICITY,

The use of them is very easily acquired, and any girl of ordinary intelligence is capable of keeping them in order.

SECOND—THE CONSTRUCTION

of the Machine is such that it may be run at a higher rate of speed than any Shuttle Machine now in the market. In factories where the rate of speed has been registered, over

1,000 Stitches per Minute

have been attained with ease.

THIRD—THEIR DURABILITY

being so strong in all their parts and fitted with great mechanical nicety, and being free from the harsh jarring movements and friction so common in inferior machines they will wear a long time without repair of any kind.

FOURTH—THEIR ADAPTABILITY,

By a simple change of the needle and thread they will sew the finest cambric or the heaviest leather.

FIFTH—THEY HAVE NO ROTARY CAMS, Cog-wheels or lever arms to make a noise, run hard, or to get out of order.

SIXTH—THEY HAVE AN ADJUSTABLE Feed which may be raised or lowered at pleasure.

SEVENTH—ALL THEIR MOVEMENTS are positive and they cannot be thrown out of time.

Manufactured by the Largest Manufacturing company in America, possessing a worldwide reputation in the manufacture of their firearms, they afford a guarantee of perfection in work and construction.

No other sewing machine has ever been introduced so quickly and met with such rapid sale as the

REMINGTON

It arouses the jealousy, opposition and persistent mis-representation of the older Sewing Machine Companies through their agents, and even the old Singer Company, through its agents devotes the largest part of its advertisements to show that it is not an improved Singer, and that its calculations are upon a false basis.

"With malice toward none and charity for all," it will be the aim of the agent of the

Remington Sewing Machine

to afford to all an opportunity of testing its merits with those of any other, and let them make their own selection.

SUMMONS.

IN THE DISTRICT COURT of the 17th Judicial District, of the State of California, in and for the county of Los Angeles. Action brought in the District Court of the 17th Judicial District of the State of California, in and for the County of Los Angeles, and the Complaint filed in said county of Los Angeles, in the office of the Clerk of said District Court.

Alexander Weill, plaintiff, vs. Norman C. Jones, et. al, defendants.

The People of the State of California send greeting to Norman C. Jones, Milton S. Latham, William Workman and F. P. F. Temple, composing the firm of Temple & Workman, Daniel Freeman and E. F. Spence, assignees of said Temple & Workman, E. W. Gale, P. H. Gale, Alexander C. Gale and George K. Gale, defendants.

You are hereby required to appear in an action brought against you by the above-named plaintiff, in the District Court of the 17th Judicial District of the State of California, in and for the county of Los Angeles, and to answer the complaint filed therein, within ten days (exclusive of the day of service) after the service on you of this Summons—if served within this county; or, if served out of this county, but in this District, within twenty days; otherwise, within forty days, or judgment by default will be taken against you according to the prayer of said complaint.

The said action is brought to obtain a decree of this court in case the defendant, Norman C. Jones, shall at the hearing of this suit have failed to pay to the plaintiff the amount of principal and interest now due from him on the two agreements mentioned in the complaint, amounting, as alleged, in the aggregate to the sum of $5,325 00, U. S. gold coin, principal, and $4,157 50, U. S. gold coin, interest; that the plaintiff be restored to the possession of the real property in the complaint described; that the plaintiff be decreed to have the same estate and interest in said premises as before the execution of said agreements; that the premises respectively described in said agreements be declared discharged from any incumbrance or charge in respect to the agreement affecting it, and that the defendant, Norman C. Jones, and all persons claiming through him, and especially the defendants Temple & Workman, Milton S. Latham, Daniel Freeman and E. F. Spence be forever debarred from having or claiming any estate or interest or right of possession in the said premises; that the defendants last above named be forever restrained from enforcing or attempting to enforce either of said mortgages in the complaint mentioned; that the said two agreements be held in relation the title and possession of said premises as of no effect, and void as respects the said Norman C. Jones and all claiming under or through him; that the defendants E. W. Gale, P. H. Gale, Alexander C. Gale and George K. Gale be required to surrender the possession of the premises occupied by them, or to atone to plaintiff, or for such other and further relief as the plaintiff may be entitled to and for costs of suit. For further particulars reference is hereby made to the complaint.

And you are hereby notified that if you fail to appear and answer the said complaint as above required, the said plaintiff will apply to the Court for the relief demanded in the complaint.

Given under my hand and the seal of the District Court of the 17th Judicial District of the State of California, in and for the county of Los Angeles, this 1st day of March, in the year of our Lord one thousand eight hundred and seventy-six.

SEWING MACHINES!

If you are wanting to buy a Sewing Machine, try a new Wilson and you will have no other.

A trial will convince the most skeptical of its superiority over all others, being adjustable in all its parts, every movement being positive, with a perfect tension and adjustable feed. It is simple, strong, durable and cheap, light and rapid running, doing all the different varieties of sewing from the finest fabric to the heaviest cloth or leather.

The latest improved Wilson will not run backwards, thereby avoiding the breakage of needles and thread and necessitating the removal of the goods from the machine while winding the bobbins as is the case with all other machines. HIGHEST PREMIUM AT THE WORLD'S FAIR, Vienna 1873. A very important improvement has lately been added to the Wilson. Call and see it before purchasing elsewhere. To try one is to buy one.

No. 5 Court street, Los Angeles, Cal.

YOUNG MEN

Who may be suffering from the effects of youthful follies or indiscretion, will do well to avail themselves of this, the greatest boon ever laid at the altar of suffering humanity. Dr. SPINNEY will guarantee to forfeit $500 for every case of seminal weakness, or private disease of any kind or character, which he undertakes and fails to cure. He would therefore say to the unfortunate sufferer who may read this notice that you are treading upon dangerous ground when you longer delay in seeking the proper remedy for your complaint. You may be in the first stage; remember you are approaching the last. If you are bordering upon the last, and are suffering some or all of its ill effects, remember that if you persist in procrastination the time must come when the most skillful physician can render you no assistance; when the door of hope will be closed against you; when no angel of mercy can bring you relief. In no case has the Doctor failed of success. Then let not despair work upon your imagination, but avail yourself of the beneficial results of his treatment before your case is beyond the reach of medical skill, or before grim death hurries you to a premature grave. Full coarse of treatment $25. Send money by Post Office Order or Express, with full description of case. Call, or address,
